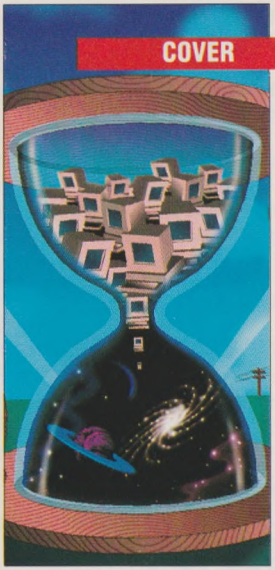
50 Ways to Get the Most From Your Online Time

COVER ILLUSTRATION: JIM LUDTKE

COVER



Q-Link This Month

With fanfare and trumpets, Q-Link this month enters the Nineties — start of a new decade! For a nationwide network of Commodore computer owners, Q-Link® provides a service that will be as common as the telephone in the years to come — an online community that links people across the continent via their home computers.

Imagine a place where you can meet new friends every day. Download software for your personal library. Get expert hardware and software support for your commercial programs. And even go shopping, make travel reservations, and keep up with news and the stock market.

For January, we look forward to the new decade a bit and welcome new members who are joining us online this month. Turn to page 6 to find out what People Connection's Window On The '90s area foresees in the decade ahead. New members will want to turn to page 4 for information about the General/Beginner's Computing Support Group, where they can find out how to become online pros in no time! And old and new members alike will want to check out "50 Ways to Get the Most From Your Online Time," which highlights new offerings and events and familiar favorites that are available to you in your home every night of the week.

On Q-Link, you can also:

- **Download thousands of public domain and shareware software programs** from Q-Link's software libraries.
- **Make your airplane, hotel, and car rental arrangements** online with American Airline's EAAsy Sabre Travel Service.
- **Make smart financial decisons** with advice from experts and single stock quotes at your fingertips.
- **Look up facts in seconds in an online, up-to-date encyclopedia**, and send your children to online classes and tutoring sessions with professional teachers.
- **Chat with people from across the country who share your interests**.

If you aren't already a Q-Link member, simply call our toll-free number, 1-800-782-2278, Ext. 2423, and we'll rush you your Q-Link software package. For just $9.95 per month, you're entitled to unlimited use of our Basic Services, a free hour's use of our Plus Services each month (a $4.80 value), and a subscription to the *Q-Link Update*.

See you online! A whole world of fun, games and information is waiting for you! — *Marshall Rens*

Some of our most enthusiastic users started out with a few reservations.

If you're one of the hundreds of thousands of people who have used EAASY SABRE, you already know that it's your personal link to SABRE®, the reservations system used by most travel professionals. What you may not know is that EAASY SABRE is also the best way to book your own travel reservations, whether you're at home, in the office or on the road.

Just choose "The Mall" on Q-Link®, access the EAASY SABRE menu, then follow the directions on the screen. You'll be able to book flights with more than 300 airlines. Make hotel and car rental reservations anywhere in the world. Even arrange discounted and short-notice vacation packages — 24 hours a day, seven days a week. And thanks to our BargainFinder℠ feature, you'll always know your flights have been booked at the lowest available fare.

What's more, you can update or cancel your reservations on-line if your plans change. All you pay is the actual price of your tickets when you pick them up at any of the 14,000 SABRE travel agencies worldwide, from your originating airline, or at an American Airlines Ticket Office. If you prefer, we'll even send them to you by mail.

It's that easy. So next time you need reservations for business or pleasure travel, use the world's most comprehensive personal travel system. EAASY SABRE.

Get Helpful Computing Advice In the General/Beginners' Support Group

MARSHALL RENS

Whether you're a new computer owner, a new Q-Link member, or just looking for advice about your general computing concerns, you'll find plenty of answers to your questions in the Commodore Information Network's General/Beginners' Computing Support Group.

Look for the General/ Beginners' Computing Support Group this month on the Commodore Information Network's main menu!

This month, the General/Beginners' group can be found on the Commodore Information Network (CIN) main menu. Along with a libraries full of useful text and programs to download, you'll find message boards, up-to-date computing news, and the expert advice of Group Leaders QDL Laura and QDL Robert, who will help you evaluate your computing needs and provide solutions to any problems you might have.

The News and Events and Messages and Articles sections of the area provide pertinent information for all computerists — tips and tricks,conference schedules, and advice on getting the most out of group participation. In the Beginners' Resource Center, you can check out commonly asked questions and answers, books for beginners, and an online computer terminology dictionary. There's even a special area devoted to using Omega-Q, Q-Link's exclusive all-purpose disk utility file!

Don't Be Shy — Just Ask!

One great advantage of the online environment is that you don't ever need to feel awkward when you're asking for help. Everyone was a beginner at some point, and Q-Link members love to share their expertise with others. The atmosphere of the General/Beginners' Group is informal and informative, so asking lots of questions is *the* best way to learn the ins and outs of your computer!

The General/Beginners' Group meets online every Friday night at 10 p.m. to tackle a variety of topics like downloading, getting around Q-Link, and more. If you want to learn more about the possibilities of Commodore computing, make the General/Beginners' Support Group a regular stop in your Q-Link travels!

Explore the World of the Nineties

"SADIE"

Imagine yourself attending class with computer-generated images of your classmates, or going on a cruise at age 90 looking like a 20-year old.

Technology like this could become reality in the '90s, a decade that will see innovation that previously existed only in the imaginations of the most creative science fiction writers.

Open your computer's curtains and take a peek at this world in People Connection's **Window On The '90s** area, this month only in Just For Fun's QSociety!

Explore **The '90s Vista:** fiber-optic networks enabling superfast data transmission that renders the modem obsolete; smart TVs that adjust to your viewing habits; computer voice recognition; people traveling "inside" their computers, and more!

The Windows On The '90s area also features excerpts from *The Futurist* magazine, which reveal upcoming trends that will change our lives — from computing and space exploration to health and personal relationships. *The Futurist's* computer editor, Gareth Branwyn, will host a special conference dedicated to your questions about the decade ahead at 10 p.m. on Wednesday, January 24, in the People Connection Auditorium.

Curious about what software will be red-hot in 1990? Find out from our exclusive **Hotware of the 1990s** list, compiled by our software industry experts. They're the first to know about sizzling software packages, and they'll pass their knowledge on to you — *before* the programs hit the shelves.

Online "Prophets" Profit in January with a Software Library!

Once you've scoped out what programs are hot, set your sights on winning a library of popular software by making predictions: People Connection gives you a chance to flex your psychic muscles in the **Predictions for the '90s Contest!**

Share your views on what life **online** will be like in 1995! The most creative submissions will receive a software library to carry them through 1990 in style...and the 1980s version of "Trivial Pursuit" to remember the decade that was!

Open your sash and peer into the future with People Connection's Window On The '90s...and prophesy your way to free software and lots of futuristic fun!

Ring In the New With Enhanced "Super Q" Software

ROBIN ROSE

Q-Link software developers have been working overtime to make the New Year especially exciting for you — and they've succeeded! "Super Q," a program that complements your Q-Link disk, gives you the ability to do more on Q-link than ever before!

That means you'll have the ability to perform disk commands, list directories, copy, rename, format and scratch files, and choose different character sets while you're online! For instance, now you can save money by composing E-Mail and Online Messages with your personal word processing program, saving them to disk, and then sending them when you sign on to Q-Link. No need to spend Plus time writing long letters online!

If your QFriend sends you a special message you can use the new "Save" feature, which allows you to save any of the E-Mail or Online Messages that you receive to disk. You can even pass on a funny letter that you receive to another friend with this added functionality.

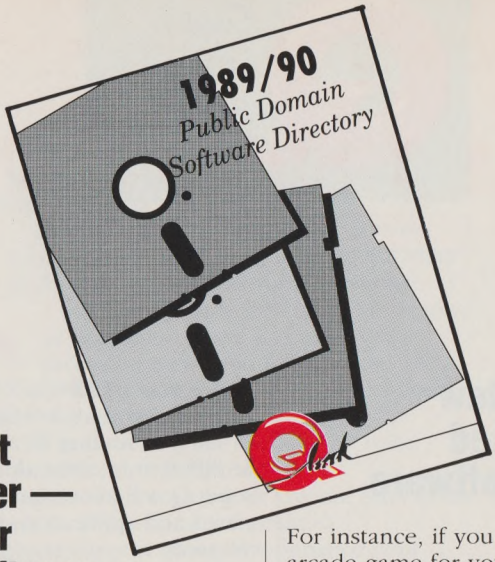
Are you a RabbitJack's Casino hi-roller? Are you a Club Caribe native? Or are you waiting for something a little different to come along? Well, Super Q will allow you to access new games and applications that will be released in the months to come!

And for those Q-Linkers who haven't experienced Music Connection — it's included in the Super Q file! Play thousands of songs while you socialize, chat while you're in the Auditorium, and edit your E-Mail.

Super Q lets you perform disk commands, list directories, copy, rename, format and scratch files, use different character sets, and much more! Download it tonight!

The 12-minute Super Q download (for 1200 baud users) is a must for every Q-Linker! Make sure you have a blank, formatted disk before you download (or you can copy Super Q over your old Music Connection disk). Then get details on how to download and enjoy Super Q in Just For Fun's and CIN's Super Q Center.

(Just For Fun or Commodore Information Network/Super Q Center)



Don't Wait Any Longer — Order Your Q-Link Software Directory Today!

MARSHALL RENS

If you haven't ordered your copy of the *Q-Link 1989-90 Public Domain Software Directory* yet, don't despair — you can still get one if you act now!

The *Software Directory* lists the programs and files available for download in the Commodore Information Network and Commodore Software Showcase Software Libraries. Having your own copy of the *Software Directory* makes downloading quicker and easier by allowing you to browse through the Software Libraries offline. It's nearly twice the size of the 1988 Edition, with information on over 25,000 public domain files available on Q-Link. For just $14.95, it makes locating the files you want to download a snap!

Information on each file listed in the directory includes the file's subject heading (in bold letters), the filename, the name of the uploader, and the date the file was uploaded. Chapters are divided into the same categories as the online libraries, and the files are listed under each category in alphabetical order by subject heading.

Comprehensive Listing of 25,000 Programs

For instance, if you are looking for an arcade game for your C128, check the Table of Contents for "C128 Software" and find the chapter titled "Game Room." In that chapter, look for the category called "Arcade." Under Arcade, you will find additional subdivisions such as Strategy, and all of the "Strategy" game files will be listed there in alphabetical order. Scan down the page until you find a subject heading that interests you. Choose the files you want and use the "Download a Specific File" option online to get your programs fast!

In addition to the public domain files in the general software libraries of CIN and the Showcase, the *Software Directory* also includes all the files of the GEOS Arena, Special Edition Software, Software Publisher and Education Software Libraries.

You can order your *Q-Link 1989-90 Public Domain Software Directory* online in The Mall's Q-Link Store and in the CIN's Download Help and Information area for $14.95 (it's available to VIQs in the VIQ Mall for a 20% discount). With the Software Directory, you'll have what it takes to become a power software downloader!

GEOS HAS GO
BUT THIS OFFE

When is an upgrade not an upgrade? When you're upgrading to GEOS 2.0.™

Oh, sure, you've heard a lot of that upgrade stuff before. But GEOS 2.0 isn't just a couple of itsy bitsy enhancements here and there. It's more like 60 whole new options, utilities and applications (some of which were once sold separately) all rolled into one package.

29.95 Special upgrade offer.

Something to write home about.

The fact is, GEOS 2.0 is different. Really different. Even in the way it affects your wallet.

For a very limited time, we'll upgrade your GEOS 64 or 128—normally $59.95—for only $29.95 ($34.95 for GEOS 128). Which means that for a very few dollars, you can get a whole lot more out of the system that revolutionized the Commodore® world.

Sound good? Well, this ought to make it sound like music to your eyes:

Order your 2.0 upgrade with this coupon and we'll send you FontPack 1™—20 terrific typefaces of all shapes and sizes—for free. Zip. Nada.

Now is that an upgrade offer, or what?

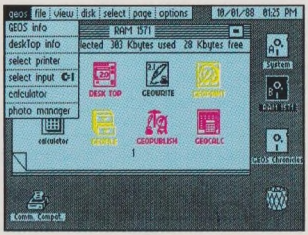
With new geoWrite™ 2.1 you can incorporate multiple column overlays, headlines and borders and instantly convert any Commodore based text (like PaperClip,™ Easy Script,™ Speed Script™ and Word Writer™) into a geoWrite format.

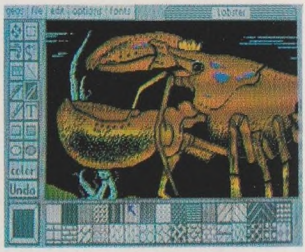
You also get 10 fonts (7 styles in multiple sizes). Date and time stamping. Expandable margins (to 8 inches). Right, left, center and full justification. Single, 1.5 and double spacing. Page numbering. Headers. Footers. Search and replace.

And that's only a *partial* list.

A new geoSpell™ automatically corrects any blunders it finds 38% faster than before. A new geoMerge™ combines with geoWrite to create customized letters and lists. And geoLaser™ prints near-typeset quality output on Apple® LaserWriters.™

Whew.





More graphic displays of power.

A new geoPaint™ still gives you 14 graphic tools, 32 brush shapes and 32 painting patterns. But now it can also enlarge or reduce images to scale. And new paint brushes let you create semi-transparent

TTEN BETTER
R NEVER WILL.

overlay effects.

There's a new grid for easier sketching of large images. New graphic shapes, including connected lines, ellipses and squares. And for more perfect control, you can now stop pattern fills in progress.

The new 2.0 deskTop™ allows multiple file selection for most operations. And erases entire disks without reformatting. It manages more files, three disks and drives (even the 1581) in less time. Copies files faster with fewer disk swaps. And even color codes file icons for easier identification.

There are more keyboard shortcuts. More enhanced desk accessories. It can even retrieve your most recently deleted file from the waste basket!

The price of power.

For any non-GEOS owner, these two packages might cost a princely sum. But not for you. You were with us when we started, so we figure we owe you one.

Make that two.

So get on your horse and send in the coupon. After all, upgrade offers come and go.

And this one is going very, very fast.
